

## **Congress is doing something right?!?!?!?**

I just signed a petition to show my support for a new bill in Congress that would actually would actually help turn our economy around by ending the wars, raising taxes on millionaires, creating 5 million jobs in just two years, and more.

It's up to us to stand with the few brave members of Congress who are willing to push for the "unrealistic" ideas that would actually create solutions and force anyone who stands in the way to explain themselves — or get out of the way.

Can you join me in showing your support at the link below? Link removed – 2011 article

Thanks!
