

## **EPA website removes climate science site from public view after two decades**

**by Rev. Joe Dirt - Saturday, April 29, 2017**

<http://www.curmudgeon-alley.com/epa-website-removes-climate-science-site-public-view-two-decades/>

Apparently anything that gets in the way of immediate profit is to verboten , no matter the future consequences. Almost every time I look at a news site my stomach does a flip-flop over some new piece of idiocy. Trump and his administration's world view is totally incomprehensible to me. The best I can figure these people have absolute no social conscience and probably no conscience at all...sick, sick, sick.
