

## Save the paragraph

**by Rev. Joe Dirt - Tuesday, January 12, 2010**

<http://www.curmudgeon-alley.com/save-the-paragraph/>

I am starting a campaign to save the paragraph. I may get bumper stickers printed up.

Email and other electronic forms of instant communication have done much to butcher and change written communication. One of these is the loss of the paragraph in such writings.

For me, at least, it makes some of these hard to read when they run for 100s of words without a pause or logically grouping thoughts.
